

Frodsham Solar Phase One Community Consultation

Thursday 1st June –
Thursday 13th July 2023

Peel Cubico Renewables is excited to introduce Frodsham Solar, a solar farm with energy storage situated north of Frodsham in Cheshire.

Frodsham Solar will be able to export up to 100 megawatts (MW) of clean, reliable, home-grown power into the local distribution network to power homes across Cheshire and Merseyside. We are also actively exploring how the project could connect clean power into local industry.

Key

We would like to invite you to take part in our first phase of consultation between **1st June 2023** and **13th July 2023**

Find out more

Attend one of our in-person information events or our community webinar for the chance to speak to members of the project team, ask questions and view information about Frodsham Solar.
